Subject: FW: Peroxide Plant incident

CAPT Deptula, CDR Boyd,
Good afternoon sir, ma'am.

Below is the email chain from ESF#10 Region VI.

Also, the text immediately following was information received from a NRCC planning member with a local contact. ***THIS INFORMATION IS FROM A SECOND HAND SOURCE***

- 1344 Region VI reported during the interagency VTC that there is a peroxide issue near Arkema Inc. – Crosby Plant (18000 Crosby Eastgate Rd, Crosby TX). Trucks (possibly abandoned) are pressed up against the Plant. The trucks are carrying peroxide. If peroxide reaches a certain temperature (~70F) it becomes unstable; it may also dissipate. The condition of the A/C in the trucks is unknown, but it is a concern that it will not be able to cool the product. The estimated blast radius 1.5 miles. This area was previously evacuated (flood water). Region VI ESF10 is aware of the situation and working with TCEQ to understand/resolve (possibly move trucks, stabilize A/C, etc).

Respectfully,
LCDR Matthew Walter, USCG
NRCC ESF#10 Oil/HAZMAT Specialist

Subject: RE: Peroxide Plant incident

As soon as we have more information ... our Dallas emergency response program is working the issue right now, coordinating with TCEQ...

With Regards, Steve

Subject: RE: Peroxide Plant incident

Can we get 101 on the "situation" (real short; i.e. boom, fire, leak, release, etc)

Respectfully,
LCDR Matthew Walter, USCG

The facility is:

Arkema Inc. - Crosby Plant
18000 Crosby Eastgate Road
Crosby, Harris County, TX

The TCEQ Emergency response program is aware of the situation and has been coordinating with the facility, as well as local responders...

EPA Region 6 is coordinating with TCEQ on the issue also...

With Regards, Steve

Steve, Mia,

Region VI reported an incident that was just coming in...what do I need to know?

Respectfully,
LCDR Matthew Walter, USCG
